

# FRAMING ELEGANCE: The Medley Of Art And Fashion

Is fashion a form of art? The question stirs debate, but there is no right or wrong answer. Art remains a form of expression and we portray ourselves by what we wear and also create as artists. This is how stories are told, spirits are lifted and people are inspired; the play of color, contrasts and textures. We have curated a fruity palette across various woven and printed fabrics to brighten up your holiday wardrobe, adding texture with the appliqué of roses seen on fashion runways in recent weeks and complementing with bold jewelry to create elegant, vibrant and playful couture.
